Smart Air Purifier

User Manual

Congratulations on your investment in your brand new Intellipure® Professional Air Cleaning Device. We believe you deserve the best. Your choice of this Intellipure Air Purifier will bring clean air and create a healthier indoor environment for you and your loved ones. Now let's get started.

Principles of Air Purification

A HEPA filter can effectively filter most airborne particulate pollutants larger than 0.3µm in diameter, such as PM2.5, dust particles, pet dander, pollen, cigarette smoke and odor, etc., so as to achieve the purpose of air purification.

Air Purifier | Multi-stage filter x 2 | Power Plug | Instruction manual

Important Safety Precautions

Please read all instructions before operating your air cleaner. Basic precautions should always be observed when using electronic appliances to reduce the risk of fire, shock and injury.

⚠ PLEASE PAY ATTENTION TO VENTILATION WHEN USING THE AIR PURIFIER AND GAS APPLIANCES AT THE SAME TIME.

1. Non-professional maintenance personnel are prohibited from dismantling and refitting the air purifier.
2. Prohibit the use of power beyond the specification.
3. Do not get the air purifier wet.
4. Do not wipe the air purifier with alcohol or organic solvent.
5. Avoid operating equipment around heavy smoke and oil fumes. Do not spray insecticides in or on the unit.
6. Do not spray insecticides in or on the unit.
7. If the power cable is damaged, do not run the device
8. Tip: Don't block the PM2.5 sensor
9. Close doors and windows to effectively and quickly purify indoor air.
10. Inspect the power plug regularly for any damage.

NOTE: If any of the following happens, unplug the power immediately.

No button is working

Short circuit

The power cord or plug becomes abnormally hot

There is a burning smell or unusual sound and vibration

Other abnormal phenomena or malfunctions.

Specifications

Model #	H1000
Rated Voltage / Frequency	AC100~240V/50~60Hz
Noise	<54dB (Minimal noise:23dB)
Purification Method	Multi-stage filter
Main Material	ABS
Speed Setting	5 speeds (+auto mode)
Product Size	10.63 x 14.88 x 24.13 in / 270 x 378 x 613 mm
Weight	18.08 lbs / 8.2 kg
Power Cord Length	5.9 ft / 1.8 m

Operation | Function Description

Note: The power outlet for the air purifier is located at the bottom, and the "8"-shaped end of the power cord should be inserted into the unit. The air purifier has two intake ports and two exhaust ports. When the machine is placed against a wall, it should be kept at an appropriate distance.

Connect the power outlet to the back port of the air purifier, then connect it to the socket. When the air purifier emits a long beep and the power button flashes, the air purifier is ready.

On/Off Button

1. Turns the air purifier on/off.
2. Resets Wifi - Tap to turn on the purifier, long press for 5 seconds to reset.

Note: Indicator Blinks when connecting/disconnected from Smart Life, lights up when connected to Smart Life.

SMARTLIFE APP

1. To download the Smart Life app, search for "Smart Life" in the Apple App Store® or GooglePlay Store or scan the QR code.
2. During the setup process, ensure you are connected to a secure 2.4GHz Wi-Fi® network (DO NOT CONNECT TO 5GHz NETWORKS). Confirm that the network is working correctly.

Note: Make sure your phone has Bluetooth® turned on and is not currently connected to another Bluetooth device. Enter the correct Wi-Fi password.

3. Plug in, Tap  to turn on your purifier, long press  for 5 seconds, if  blinks it indicates that Wi-Fi is enabled and unit is ready to connect.

4. Open the Smart Life app, Log In or Sign Up

Note: You must create your own Smart Life account or use a third-party account (such as Google or Apple) to use third-party services and products.

5. The device will be automatically detected. Follow the in-app instructions to complete the connection. When connected successfully, the Wi-Fi indicator will remain on, otherwise, it will keep flashing.

Note: Your phone must have Location turned on while your phone is connecting to your smart air purifier. This is required to establish the Bluetooth® connection. You can turn Location off after your smart air purifier is finished connecting to the Smart Life app.

Remove a Connected Mobile Device

Power on, Tap  to turn on your purifier, long press  for 5 seconds until  flashes quickly. Previous connected devices have been removed successfully. To add a new device, refer to Smart Life App Setup.

The Smart Life app is continually being improved and may change over time. If there are any differences, follow the in-app instructions.

Operation | Function Description (Continued)

Turn to manual connection if auto connection fails after being in Wi-Fi connectivity mode for 2 minutes.

METHOD 1:
When the Wi-Fi indicator flashes quickly:

- 1. Make sure Wi-Fi on your phone is turned ON.
- 2. Open Smart Life APP, “click to add Device”→“Add manually”→“Small home appliances”→“air purifier (WI-FI)”→operate according to the APP prompts.

Note: Wi-Fi connection is only available for 2.4G network. Switch to 2.4G network if mobile device is currently under 5G network.)

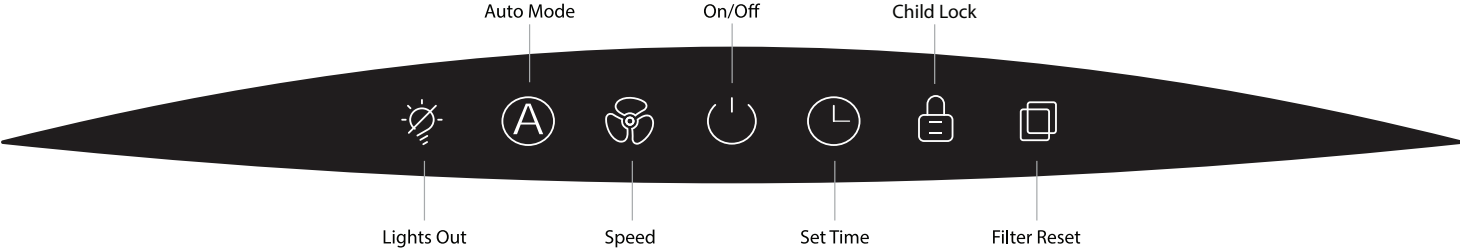

- METHOD 2:
- 1. Tap to turn on your purifier, long press for 5 seconds, device will beep once, the Wi-Fi indicator will start flashing quickly, hold for another 10 seconds until the Wi-Fi indicator will flashes slowly:
 - 2. Make sure Wi-Fi and Bluetooth on your phone are turned ON→Open Smart Life APP→“click to add Device”→, “Add manually”→“Small home appliances”→,“air purifier (Bluetooth + WIFI)”→operate according to the APP prompts.

LCD Screen and Control Panel

- 1. Tap to change speed - 1F/2F/3F/4F/5F/1F
- 2. Tap to turn on/off the screen. The screen is turned on by default.
- 3. Automatically adjust the operation speed according to the detected air quality
- 4. Tap to cycle between 1h/2h/5h/8h/12h/Cancel timer.
- 5. Press and hold for three seconds to lock/unlock the air purifier
- 6. The filter timing starts to count down when the unit is in use. Touch the button to display the real time filter life percentage. The starting value is F99. When the filter life is used up, filter life value shows F00. The filter life indicator on the screen starts flashing, and the filter reset button also flashes
- 7. After replacing the filters, press and hold the filter reset button for 5 seconds until you hear three beeps, the screen displays F99. All filter life indicators resume solid. Reset is completed.

The filters are equipped with RFID chips. If a non-authentic filter is used, an error message (E5) will appear on the screen. We strongly recommend purchasing genuine Intellipure filters to ensure optimal performance.

AUTO MODE SPECIFICATIONS			
PM2.5 Index	Air Quality	Speed	Color Indicator
PM2.5<50UG	outstanding	1F	Green
51UG≤PM2.5<100UG	good	2F	blue
101UG≤PM2.5<150UG	normal	3F	orange
PM2.5≥151UG	poor	4F	Red

Maintenance

The unit needs regular maintenance to ensure optimal performance. Regularly wipe the air inlet and outlet with a soft, damp cloth. Allow the unit to dry completely before turning back on.

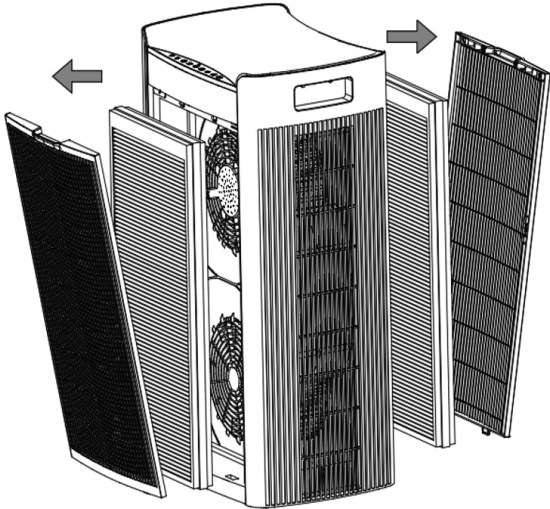

- 1. Turn off the unit and unplug the power cord.
- 2. Open the purifier cover from the notches on both sides and remove the filter.
- 3. Install the new filter (remove the protective plastic bag) and reset the cover.
- 4. Press and hold the filter button for 5 seconds until you hear 3 beeps to complete the reset of the filter indicator.

Trouble Shooting:

- No Power
- Check if power cord plug is completely plugged into the unit.
 - Make sure the wall outlet has power.

- No air coming out of the unit
- Ensure the unit is powered on and try to increase the fan speed.
 - Make sure nothing is blocking the air intake.
 - If the filter is too dirty, air will be restricted. Please replace the filter.

If the air purifier still doesn't work, please unplug the unit and contact our support team.
