Wall-Mounting Your MinusA3

The A3 Air Purifier is designed to be either
freestanding or wall-mounted. Only use the
approved Rabbit Air wall-mount kit to install
the A3 Air Purifier on your wall.

General guidelines:

- The A3 Air Purifier can be mounted right
side up or upside down. We recommend
mounting it upside down if mounting
higher than 6 ft. to ensure you can access
the Control Panel easily.
- We recommend leaving at least two feet of
clearance from air outlet and eight inches
of clearance on either side to ensure
optimal performance.
- Be careful not to drop the front panel or
filter case when replacing the filters.
- Do not pull on the power cord.
- Make sure the hanger screws have been
securely driven into studs.

Disclaimer for Installing Wall-Mounted Objects

Do not attempt to install this product if you do not understand the instructions. Contact a qualified contractor
to install the mounting bracket and call 1.888.866.8862 if you have any questions. You risk the possibility of
damaging the Air Purifier, damaging other property, and personal injury if the mounting bracket is not installed
properly. Check to make sure there are no missing or defective parts. Do not attempt to install the mounting
bracket if there are missing or defective parts. Contact Rabbit Air and replacement parts will be shipped to you
immediately. Rabbit Air is not liable for damage or injury caused by incorrect mounting, incorrect assembly or
incorrect usage.

- After installing the wall-mount bracket, make sure it is firmly in place before putting the A3 Air Purifier on it.
- Take care not to drill or screw into existing wiring in the wall while installing the wall-mount bracket.

Correct installation is extremely essential and falls outside the scope of responsibility of Rabbit Air. Please
consult a qualified contractor and/or specialist supplier to install the mounting bracket. Maximum weight of air
purifier SPA-1000N: 11.5 kg / 25.4 lbs.

1. Decide the location and orientation, right side up (a) or upside
down (b), for wall-mounting your A3.

Using this guide as a reference. Mark the exact placement of the
included wall-mount bracket for the desired mounting location.

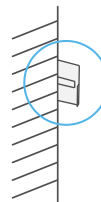

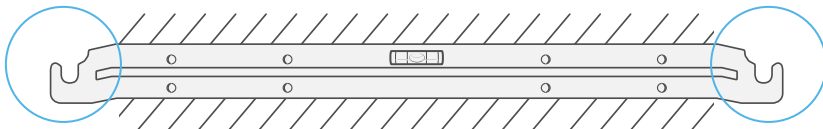

a.

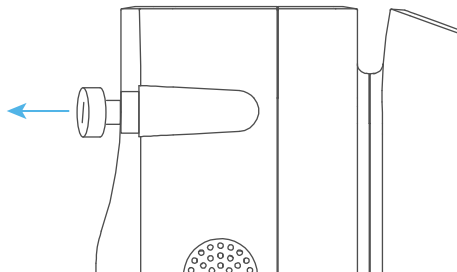

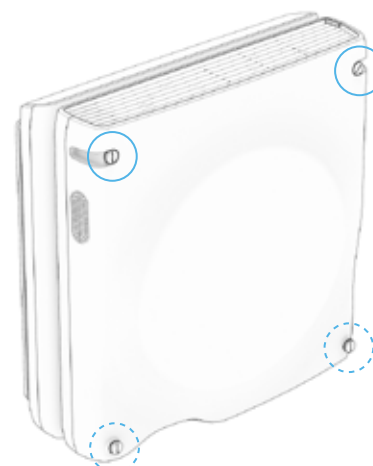

b.

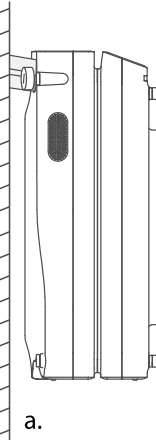

2. While making sure the wall-mount bracket is leveled and facing
the correct direction, secure the bracket onto the wall by driving
screws through the holes in the bracket. The necessary number of
screws depends on wall type and construction.

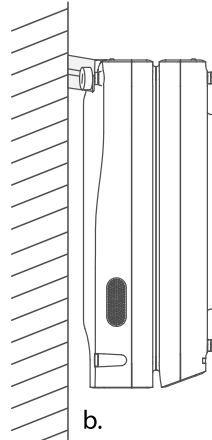

3. On the back of the air purifier, unscrew the two fixtures you will
use for wall mounting (top two for mounting unit right side up,
bottom two for mounting unit upside down).

4. Once the bracket has been properly affixed to the wall and the two wall
mount fixtures have been fully extended. Place the air purifier onto the
bracket while aligning the two fixtures with the pocket on the bracket.
