- High filtration efficiency and thorough air purification.
- Effectively removes airborne particles.
- Maintains fresh and comfortable air quality.
- Suitable for use on the floor, desktop, home, office, and car.

What's in the Box:

- Air Purifier
- Adapter

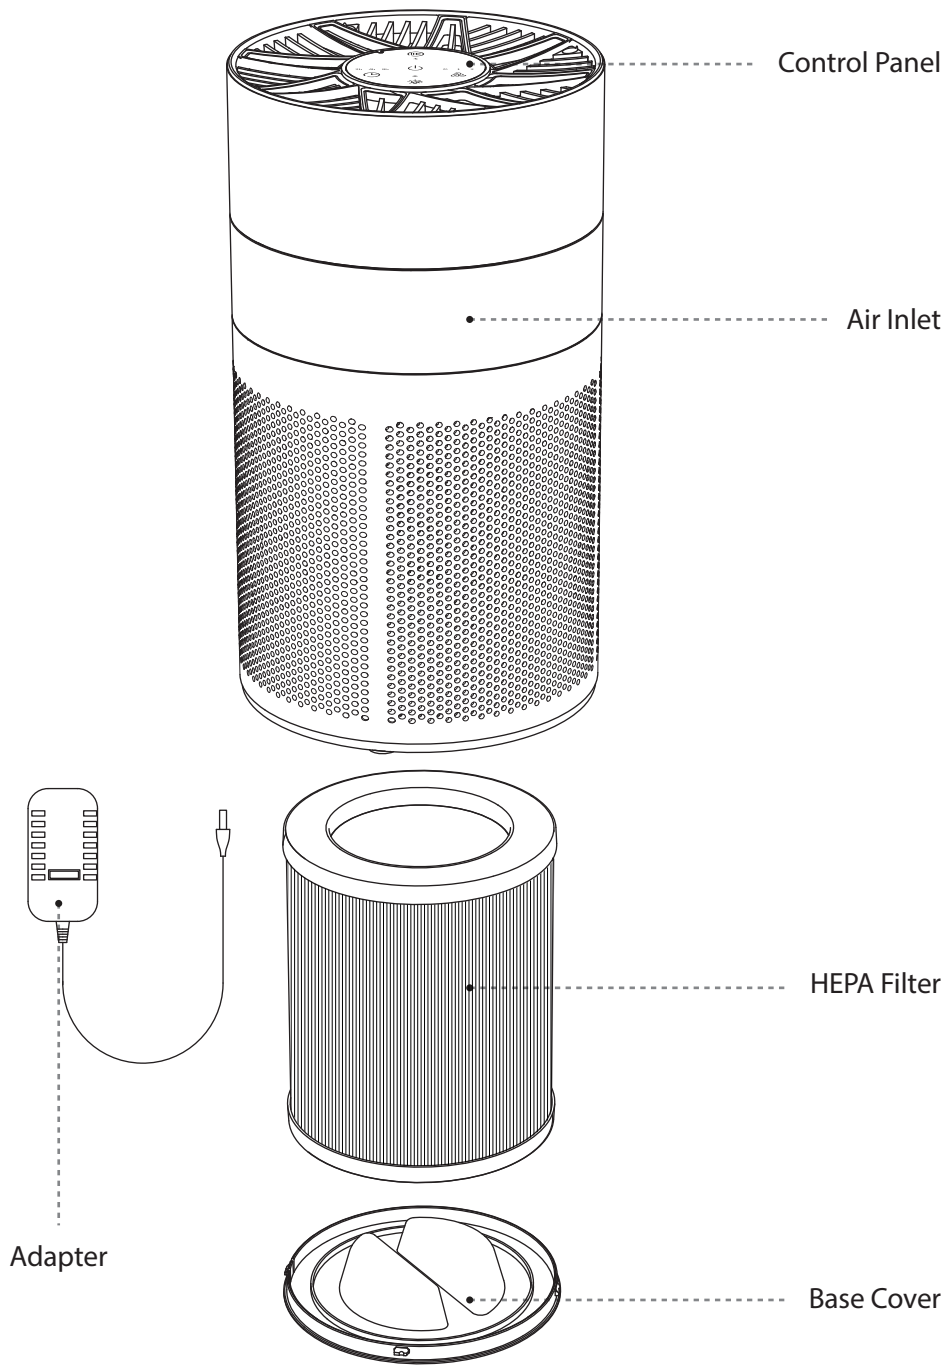

Technical Specs:

- Construction Material: ABS + HEPA
- Electricity Required / Power Supply: 12V
- Can it be Plugged into an Outlet via an Integral Corded Plug or an AC Adapter: DC12V Adapter
- Type of Adapter: DC12V Adapter
- Timer: 2, 4, or 8 hours
- Power Consumption in Watts: 18W
- Filter Included: HEPA 13
- Rated Voltage: DC12V With Adapter
- Power Output: 18W
- Hape Filter: H13 Activated Carbon Filter
- Floor Area: 63.8 ft²
- Replace Filter Time: 2000H
- Timer: 2, 4, 8h
- Timer Function: 2/4/8h
- Product Dimensions (L x W x H): 6.7" x 6.7" x 12"-inches

Safety Instructions

1. Ensure the plug fits properly into a polarized power outlet.
2. To avoid fire or shock hazards, connect the purifier to the correct electrical outlet.
3. NEVER place the unit on a soft surface such as a bed or sofa, as this could cause it to tip over and block the air inlet or outlet grills.
4. Do not place anything on top of the unit.
5. Do not move or tilt the unit while it is in operation.
6. Do not insert fingers or objects into the air outlet.
7. Do not use outdoors. This unit is suitable only for indoor use; avoid strong sunlight and rain.
8. Keep the unit away from water to prevent electrical hazards.
9. Do not use the unit in wet or humid environments.
Thoroughly dry your hands before handling the air purifier.
10. Do not place the unit directly below an air conditioner to prevent moisture from entering the purifier.
11. Do not allow children or pets to play on or near the unit.
Close supervision is necessary when the appliance is used near children or disabled persons.
12. Keep the unit away from heated surfaces and naked flames such as stovetops, ovens, radiators, or computers.
13. Always turn the purifier off before unplugging it.
14. Always unplug the air purifier before moving, cleaning, opening the grill, changing the filter, or when the unit is not in use.
15. To disconnect the unit, pull the plug rather than the cord.
16. NEVER use detergents, gasoline, glass cleaners, furniture polish, paint thinner, or other solvents to clean any part of the purifier.
17. Repairs or modifications should only be performed by qualified professionals.
18. Do not operate the appliance with a damaged cord or plug.
If the motor or fan fails, or the unit has been dropped or damaged, contact customer service.

Product Structure

OPERATING INSTRUCTIONS

1. Check Components:

Ensure all components are present and undamaged before use.

2. Connecting Power:

- After connecting the power, the purifier will enter standby mode.
- Only the ON/OFF button will function in standby mode.

	Powering the Purifier: • Tap the ON/OFF button to switch the purifier on or off. • The default setting is Level 1, with the ambient light turned on.
	Changing Modes: • Tap the Mode Button to cycle through operating modes in the following order: Level 1 → Level 2 → Silent Mode. • The corresponding Level Indicator Light will display the current mode. ☁ 1 2
	Using the Timer Button: • Standby Mode: Tap to set timed power-on (2h, 4h, or 8h). • Power-On Mode: Tap to set timed power-off (2h, 4h, or 8h). • The timer indicator will light up to confirm the setting.
	Adjusting Ambient Light: Tap the Light Button to cycle through ambient light modes: • Color-Changing Breathing Light • Single Color Modes (Color 1–7) • Turn Off Ambient Light Press and hold the button to reset the filter. The filter indicator light will turn on when the filter’s lifespan expires (after 2,000 hours).
	Volume Up/Next Track Button: • Tap to increase the volume by 1 level. • Press and hold to skip to the next track.
	Volume Down/Previous Track Button: • Tap to decrease the volume by 1 level. • Press and hold to return to the previous track.

FILTER USAGE INSTRUCTIONS

Important:

The purifier comes with the filter pre-installed.

Ensure you remove the filter's packaging before first use.

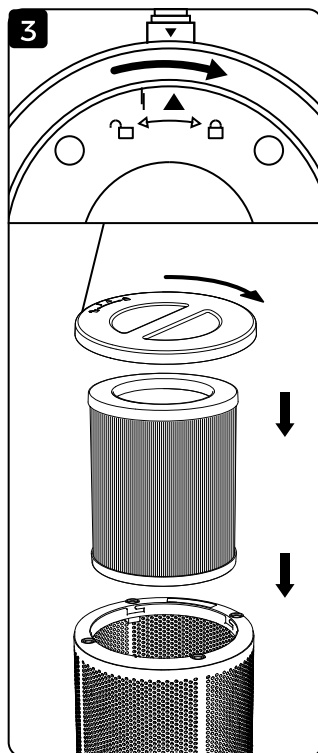

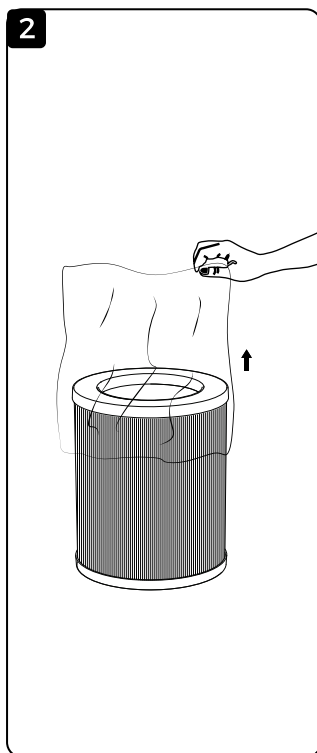

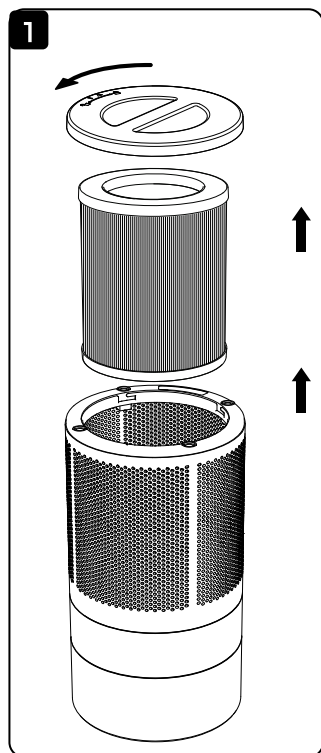

1. Rotate the base cover counterclockwise to unlock it.   

2. Remove the filter and its packaging.

3. Place the filter back inside the appliance.

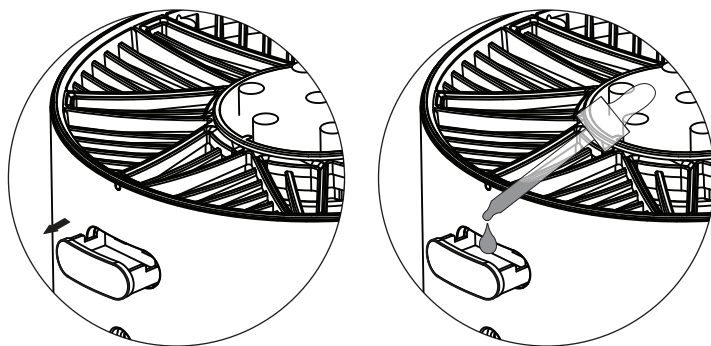

4. Rotate the base cover clockwise to lock it securely.

You will hear a "click" sound when it is properly fastened.   

AROMA DIFFUSER INSTRUCTIONS

1. Turn off the purifier before adding essential oils.
2. Use a dropper (provided with the essential oils) to add the oils.
 - **Do not pour oils directly into the aroma box.**
3. Add 4–5 drops of essential oil each time.

Cleaning, Maintenance, and Storage Guide:

Cleaning:

1. Turn off the purifier and unplug it from the power source.
2. Use a dry, soft cloth to wipe the exterior of the unit.
 - Avoid using water or liquid cleaners.
3. For stubborn dirt, lightly dampen a cloth with water and wipe gently.
 - Ensure the unit is completely dry before reconnecting it.
4. Clean the air inlet and outlet grills using a soft brush or vacuum to remove dust and debris.

Filter Maintenance:

- Replace the HEPA filter every 2,000 hours of use or as indicated by the filter replacement reminder.
- Follow the instructions provided to safely remove and install the filter.

Storage:

1. If the purifier will not be used for an extended period, clean it thoroughly and allow it to dry completely.
2. Remove the HEPA filter and store it in a dry, sealed bag to prevent dust accumulation.
3. Place the unit in its original packaging or cover it with a dustproof cloth.
 - Store it in a cool, dry place away from direct sunlight and moisture.

FCC INFORMATION

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This unit generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.
